

Specifically designed for use aboard vessels, the Coltri/Nuvair MCH6 compressor is mounted in a stainless steel frame and is equipped with a inverter drive for use with generators. The MCH6 Portable is a standalone, four stage, high-pressure compressor that is lightweight and easy to maneuver on or below decks. Fill hose, auto drains, pressure switch, remote on/off switch, and air filtration system are included. The MCH6 is designed for personal use. It is not engineered for continuous-duty filling of storage tanks or cascade storage systems of any kind.

## FEATURES

- Excellent portability
- 4500 psi (310 bar) maximum pressure
- Four stage, 3.5 CFM high-pressure compressor
- Grade E breathing air filtration
- Pressure switch
- Automatic condensate drain
- Phase inverter drive for use with small generators
- Stainless steel frame
- Digital hour meter
- Remote start / stop button

## OPTIONS

- Visual CO/moisture indicator
- Fiberglass dock box

## SPECIFICATIONS

Fill Time*	~19 minutes
Charging Rate*	4.2 SCFM (119 L/min)
Input Power	220V / E1 / 50 or 60 Hz 15.6A ~20A draw on startup
Electric Motor Power	4 hp (3 kW)
Max Operating Pressure	4500 psi (310 bar)
RPM	2800
Number of Stages	4
Number of Fill Hoses	1
Condensate Drain	Automatic
Sound Level @ 3 meters	83 dB
Lubrication	Splash lubrication, capacity 12 oz
Dimensions (L x W x H)	26 x 15 x 15 in (66 x 38.1 x 38.1 cm)
Weight	88 lb (40 kg)

\*Based on 80 cu ft cylinder from 500 to 3000 psi.
